

| Hazards | Is the hazard present? <br> Y/N | What is the risk? | $\begin{aligned} & \text { Risk rating } \\ & \mathrm{H}=\text { High } \\ & \mathrm{M}=\text { Medium } \\ & \mathrm{L}=\text { Low } \end{aligned}$ | Control measures | Is this control in place? <br> Y/N | If no, what actions are required to implement the control? | Person responsible | Date action completed |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Sharp knives and cutters |  | Cuts/lacerations | H | Wherever possible, safety cutters are used instead of knives |  |  |  |  |
|  |  |  | H | Students are instructed about the safe use of safety cutters/knives especially the golden rule to always cut away from yourself (and other people) |  |  |  |  |
|  |  |  | H | Students are instructed about safe use of safety cutters/knives especially that you NEVER try to catch a falling knife and simply get out of its way as fast as possible <br> The need for cut and stab proof personal protective equipment (PPE) is assessed, e.g. chainmail gloues (non-knife hand) and aprons for novice users |  |  |  |  |
|  |  |  | M | Safety cutters/knives kept sharp (blunt knives require additional force in use leading to accidents) |  |  |  |  |
|  |  |  | H | Safety cutters/knives are routinely checked for damaged blades or handles and at least once per term, and disposed of if damaged |  |  |  |  |
|  |  |  | M | Safety cutters/knives are stored separately to other equipment |  |  |  |  |
|  |  |  | H | Safety cutters/knives are counted out to students and counted back in at end of class <br> Shadow boards are considered for stricter control/where security may be a concern |  |  |  |  |
|  |  |  | H | Safety cutters/knives are washed in sink separately from other items of equipment and never left soaking in sink Knives are soaked in a separate container as required |  |  |  |  |

If there is one or more $\operatorname{High}$ Risk $\mathbf{( H )}$ actions needed, then the risk of injury could be high and immediate action should be taken.
Medium Risk (M) actions should be dealt with as soon as possible. Low Risk (L) actions should be dealt with as soon as practicable.
