Anything in the design or management of work that increases the risk of work-related stress can be understood as a psychosocial hazard. (International Labour Organization, 2022).

Join our webinar with expert speakers to explore the pivotal role of psychosocial risk assessment in fostering a safer and more productive work environment. Work Positive CI is a free, confidential, and easy-to-use psychosocial risk management tool. It provides feedback on workplace stress, employee wellbeing, and critical incident exposure, offering structured guidance and action plans. This helps organisations identify risks and opportunities, comply with health and safety legislation, and improve employee engagement and performance.

Speakers include:
- Chair: Aoife Sweeney, Programme Manager, Occupational Health, HSA.
- Brian Larkin, Senior Enterprise Manager, State Claims Agency.
- Dr Robert Kerr, wellhub.
- Elaine Murphy, Senior Inspector/Organisational Psychologist, HSA.

Webinar agenda

- Review of Psychosocial Risks: Learn about psychosocial risks that can impact occupational health and workplace safety.
- Introduction to Work Positive CI: Learn about the four stage psychosocial risk assessment process; 'Prepare', 'Measure', 'Action Plan' and 'Review'.
- Legislative Compliance: Understand how Work Positive CI supports your organisation in meeting your legislative obligations regarding workplace health and safety.
- Practical Applications: Review a sample report and hear feedback from the Work Positive Community that have successfully integrated Work Positive CI into their organisations.
