

**Do you use C.I. Pigment Red 104?**  
**Lead chromate molybdate sulphate red - CAS # 12656-85-8**

You may do if you manufacture/formulate:

**Plastics**

**Or**

**Coatings**

(If you are unsure please ask your supplier)

**If you do – READ ON AS IT MIGHT AFFECT YOUR BUSINESS:**

You might need to apply for approval (“**authorisation**”) from Europe to use **C.I. pigment red 104** in the future

**SO ACT NOW!!**

**HAVE YOUR SAY BY [CLICKING HERE](#).**

**You can comment on, e.g.**

- How a ban would affect your business
- Whether alternative substances and technologies proposed by ECHA are suitable for your business
- Your use in a novel application for which an exemption from authorisation may be justifiable

You can also ask your trade association to submit comments on your behalf.

***HSA support***

The HSA are also interested in your concerns, so that we can support Irish Industry where possible. A copy of your submission/specific comments can be forwarded to the email address: [Marketing&use@hsa.ie](mailto:Marketing&use@hsa.ie).

*\* Please note that any use involving C.I. pigment red 104 as an **intermediate** is exempt from the authorisation process.*

**Respond by 30<sup>th</sup> September 2010 or else your business may be affected in future**

**Further information on the authorisation process under REACH can be found by clicking on:**
